

The A·R·T and Science of Skincare

Based upon cutting-edge scientific research, Young Living has combined the health secrets of the ages with the latest technology to produce a groundbreaking new skincare system – A·R·T [Age Refining Technology]. *“Our passion for purity, quality and integrity guarantees your skin will benefit from the very best.” ~ Mary Young*

Imagine a skincare system that contains the purest sandalwood and frankincense essential oils. Blend in some delicious wolfberry seed oil to add its legendary hydrating and conditioning properties. Add Age Refining Technology that includes recovery enzymes to enhance your natural ability to restore youthful-looking skin. Imagine results that so dramatically improve the appearance of your skin that your friends are all clamouring to know what you are doing and how they can get some of what you have!

July 30th

November 17th

MaryLou Jacobsen of Young Living's U.S. office was amazed when she saw her own before and after photos! "I'll be the first to admit that I was a skeptic. I was asked to participate in a focus group at the corporate office and started using the A·R·T System. While I immediately noticed softer skin, I didn't feel like it was improving the overall appearance of my skin. After all, you look at yourself in the mirror everyday and it's difficult to see subtle changes. Six weeks later, the photographer took my after shot and said, "you had better come down and take a look at this." I was shocked! The difference in my before and after photo was unbelievable! The fine lines and wrinkles had almost disappeared, the bulge under my eye had tightened and my crows feet were half what they used to be. The results are truly amazing!"

The A·R·T skin care system contains a Day Activator, Night Reconstructor and Gentle Foaming Cleanser. Formulated from naturally occurring sugars and Young Living's proprietary blend of pure essential oils, the cleanser gently removes oil, dirt and makeup. Free of any harsh astringents, it leaves skin feeling hydrated, clean and soft. The Day Activator moisturizer is a light, water-based face and neck cream that absorbs quickly - perfect for wearing under makeup and sunscreen. The Night Reconstructor moisturizer is a medium-bodied, water-based face and neck cream with enhanced moisturizers for maximum hydration while you sleep. The day and night enzymes work in balance with each other to continually reinforce your body's ability to replenish DNA for a more complete and effective skincare system.

A·R·T SkinCare System: Code 3131500. Gentle Foaming Cleanser [100mL], Day Activator [30mL] and Night Reconstructor [30mL]. Also sold separately but the kit is the best value. Please talk to the person who gave you this flyer for price information or contact Young Living.
